

## Want to help solve one of the biggest challenges of our generation?

The pension problem - much like climate change - is slowly getting bigger and often only becomes apparent when it's too late. But it doesn't have to be!

FINABRO's mission is to help everyone do the right thing - for a comfortable and secure retirement in the future. As a start-up in the field of digital company pension plans, we are on a strong growth path. We are now 30 employees, in Austria and Germany, and have an ambitious growth plan.

We love what we do - and we love our team.

Become a part of it and help us solve one of the biggest challenges of our generation.

## Senior UI / UX Designer

Fulltime / part-time (min. 30h) - m/f/d  
Location: Vienna

[APPLY NOW](#)

---

### Your future role

As Senior UI / UX designer you will

- **Improve the UI/UX design of our consumer sign-up and user portal** in both the mobile and the web application
- **Elicit and assess user requirements**
- **Draft user flows, UI mockups, and prototypes** and align them within the organization (Customer Experience, Sales, Finance, Product&Dev)
- **Build UI component designs** that can be easily used by the development team for implementation (Javascript/React/HTML/css/Storybook)
- **Provide guidance** to our Junior UI/UX designer and other team members regarding User Experience and User Interface Design

### You bring ...

- **5+ years of experience** and a **proven track record** of UI/UX designs for mobile and web applications
- **Conceptual thinking** and the ability to explain the rationale behind your user flows (UX) designs to stakeholders
- A passionate eye for **aesthetics, typography, colors, and UI details**
- **Solid knowledge of Figma** and design languages (**Material Design**)
- Familiarity with tools like **Jira & Confluence**
- Experience of working in an agile environment (with **Scrum or Kanban**)
- **Fluent in English**, ideally also knowledge of German

FINABRO

### What you can expect apart from exciting activities:

- **Flexibility:** The possibility (also independent of Corona) to work remotely and flexibly in terms of time - for us impact always counts more than presence.
- **Agility:** we are proud of our start-up mindset, we want to try out and implement new things quickly as an agile team.
- **Great team:** working in a highly engaged, dynamic, competent team with flat hierarchies and a very informal, friendly culture.
- **Personal development:** Your development is important to us. You'll have regular feedback sessions with supervisors and colleagues, and you'll be surprised how much you learn about yourself.
- **No boredom:** No day is like the other and holds new challenges.

### Benefits
