

## Want to help solve one of the biggest challenges of our generation?

The pension problem - much like climate change - is slowly getting bigger and often only becomes apparent when it's too late. But it doesn't have to be!

FINABRO's mission is to help everyone do the right thing - for a comfortable and secure retirement in the future. As a start-up in the field of digital company pension plans, we are on a strong growth path. We are now 30 employees, in Austria and Germany, and have an ambitious growth plan.

We love what we do - and we love our team.

Become a part of it and help us solve one of the biggest challenges of our generation.

## Web Developer (WordPress, UX/ UI Design)

Full time / part time (min. 30h) - m/w/d

Location: Vienna / Berlin / Remote

JETZT BEWERBEN

---

### Your future role

We are looking for a talented **Web Developer (WordPress, UX/UI Design)** who will be responsible for designing and executing best-in-class new website builds as well as feature and template updates to our websites.

It's an opportunity to **work on cool projects**, learn from some seriously passionate colleagues and expand your skillset.

What you will do:

- **Implementation of digital projects** from briefing to go live
- Design and implementation of **wireframes, UI / UX design**
- **Setup and configuration** of WordPress
- Frontend development
- Creation of **web templates**
- Working as an **interface** between Customer Success and the in-house IT department
- **Monitoring** and implementation of updates
- **Plugin and module extensions**
- Ongoing **support & evaluations** of our websites

### You bring...

- Completed graphic training in the field of **graphic design / web design / web development**
- **2+ years** of professional and project experience in comparable positions
- Sound knowledge of **HTML, CSS, JavaScript**
- Practical experience with **content management systems** (ideally WordPress)
- Very good sense for **usability and screen design**
- Excellent knowledge in the design of **responsive websites and web applications**
- Confident handling of **Figma and React**
- **Independent work and creative problem solving** when implementing projects
- Fluent in English and German

### What else we can offer you besides the exciting activities:

- **Flexibility:** The possibility (also independent of Corona) to work remotely and flexibly in terms of time - because we only employ highly competent people whom we trust; and for us, impact always counts before presence.
- **Agility:** we are proud of our start-up mindset, we want to try out and implement new things quickly as an agile team.
- **Great team:** working in a highly engaged, dynamic, competent team with flat hierarchies and a very informal, friendly culture.
- **Personal development:** Your development is important to us. You'll have regular feedback sessions with supervisors and colleagues, and you'll be surprised how much you learn about yourself.
- **No boredom:** No day is like the other and holds new challenges

### Benefits

Company pension plan

Choose your equipment & laptop

Work where you want

No core times

Christmas & New Year's Eve off

Great modern office

Cool Teamevents

Employee perks

### Next steps

We offer an attractive and performance-related salary based on qualifications and professional experience: **starting from €45,000** (on a full-time basis).

Sounds good? Let us know via [bewerbung@finabro.com](mailto:bewerbung@finabro.com) why you are the ideal candidate for us. We look forward to hearing from you!
